About Z I Enterprise

Z I Enterprise is a multidisciplinary technology, engineering, and professional services company committed to delivering innovative, reliable, and sustainable solutions to government agencies, healthcare institutions, commercial enterprises, manufacturing industries, and private sector organizations.

Our integrated portfolio spans **Cyber Security, Information Security, IT System Audits, Occupational Safety & Health (OSH), Electronics & Engineering Services, Software Development, Web Development, and Mobile Application Development**. By combining technical expertise with industry best practices, we help organizations strengthen cybersecurity, optimize operational performance, ensure regulatory compliance, and accelerate digital transformation.

As a trusted technology partner, Z I Enterprise delivers end-to-end solutions tailored to each client's unique business requirements. Our experienced professionals are dedicated to providing high-quality services that enhance operational resilience, improve productivity, and support long-term business growth.

Driven by innovation, integrity, and customer satisfaction, we strive to build lasting partnerships and deliver measurable value through excellence in technology, engineering, and professional consulting.

Mission

To deliver integrated technology, engineering, cybersecurity, and occupational safety solutions that enhance operational excellence, strengthen security, ensure compliance, and support sustainable business growth.

Vision

To become a leading multidisciplinary technology and engineering solutions provider recognized for innovation, technical excellence, integrity, and customer satisfaction across Bangladesh and international markets

Cyber Security & Information Security

Our cybersecurity team helps organizations strengthen resilience against evolving cyber threats through Vulnerability Assessment & Penetration Testing (VAPT), Governance Risk & Compliance (GRC), Security Operations Center (SOC) advisory, threat intelligence, dark web monitoring, security awareness training, incident response support and cybersecurity audits.

Z.I. ENTERPRISE

IT System Audit & Consultancy

We assess IT infrastructure, applications, networks and business processes to improve security, governance and operational efficiency. Our services include information systems audits, infrastructure reviews, network security assessments, business continuity planning, disaster recovery planning and digital transformation consulting.

Z.I. ENTERPRISE

Occupational Safety & Health (OSH) & Engineering

Our OSH professionals assist organizations with workplace safety assessments, risk identification, HSE documentation, compliance audits, emergency response planning and professional training. We also provide HVAC, refrigeration, chiller, cold storage and preventive maintenance services for commercial and industrial facilities.

Z.I. ENTERPRISE

Electronics & Engineering Services

Z I Enterprise provides comprehensive electronics and engineering services for commercial, industrial, and institutional clients. Our experienced engineers deliver reliable installation, preventive maintenance, troubleshooting, repairs, and system optimization to maximize equipment performance and operational continuity.

Core Services:
- HVAC installation and maintenance
- Refrigeration and industrial chillers
- Cold storage systems
- Electrical control panels and power systems
- Industrial equipment maintenance
- Annual Maintenance Contracts (AMC)

Software Development

We develop secure, scalable, and business-focused software solutions tailored to organizational needs. Our team delivers enterprise applications that streamline operations, improve productivity, and support digital transformation.

Solutions include ERP, CRM, HR & Payroll, Hospital Management, Inventory Management, POS Systems, Finance & Accounting Software, and custom business applications.

Z.I. ENTERPRISE

Mobile Application Development & Web Development

We design and develop Android, iOS, and cross-platform mobile applications that enhance customer engagement and business efficiency. Our services include enterprise mobile apps, healthcare and education applications, field service solutions, UI/UX design, testing, deployment, and ongoing maintenance.

Our web development team creates responsive, secure, and high-performance websites and web applications. We build corporate websites, government portals, e-commerce platforms, educational portals, CMS solutions, API integrations, and cloud-enabled web applications with modern UI/UX.
